LYRICS

*I am walking backwards, trying to see all my choices that were
I am walking upside down, feeling like the tallest this pathway has ever known
If you walk like everyone else, life can be a drag
One day the wonder ended but we're bringing it back
I am leaping in the air, I have a higher self, I'm gonna get there
I am singing a song, hitting notes that no one has ever done
I am walking to town, come on all you people follow me down
If you're worn and beaten, I'm gonna shake you like a blind barista
Walking around like everyone else - that's not my bag
One day the wonder ended but we're bringing it back - oh, oh!
Come into my dream
It won't be so bad if you just hang around awhile
I'd like to demonstrate that peace is wherever you may be
We're gonna chill like it's going out of style
Neddy's seeming normal, but he harbors a big surprise
He lulls you with pretty petals, till a tingle hits you right between your eyes
Now we all walk together, rag-tag girls and tumble of guys
We're that speck in the distance, we're comin' into town to tell you "hi"*
